NIRANJAN DAMERA-VENKATA

Title: DITHER MATRIX DESIGN USING  
SUB-PIXEL ADDRESSABILITY

Serial No.: 10/754,175

Filed: JANUARY 9, 2004

Group Art Unit: 2624

Examiner: Unassigned

**REQUEST FOR CORRECTED FILING RECEIPT**

Office of Initial Patent Examinations  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

The Filing Receipt mailed on April 14, 2004 for the present case reflects a title of  
"Dither matrix design using sub-pixel modulation [sic]."

The correct title of the application is "Dither Matrix Design using Sub-pixel  
Addressability," (emphasis added), reflected on page 1 of the application and all  
documentation accompanying the application, including the Transmittal Letter,

S/N 10/754,175  
Niranjan Damera-Venkata

Atty Docket No. 200311694-1  
HEWP0016  
Page 2

Declaration, and Assignment. Applicant submits herewith a copy of the Filing Receipt received with the title corrected.

The only use of the word "modualtion" [sic] is on page 2 of the application as filed. The enclosed Preliminary Amendment corrects that clerical error.

Applicant submits that it is understood that the title reflected in the declaration is the correct title of the application and should have been reflected on the April 14 2004 Filing Receipt. Applicant submits that use of a title on the Filing Receipt based on the title on page 2 of the application, in contrast to the title employed on page 1 of the application, the Transmittal Letter, Declaration, and Assignment filed is incorrect, and the correct title, "Dither Matrix Design using Sub-pixel Addressability," should have been reflected on the Filing Receipt. Thus Applicant submits that the need for a revised filing receipt is due to an inappropriate selection of the page 2 title rather than the title reflected on the cover of the patent and other documentation, and is not a result of any improper action or inaction by the Applicant.

Thus Applicant submits that no fees are required for generating a corrected Filing Receipt. Should it be determined for any reason an insufficient fee has been paid, please charge any insufficiency to ensure consideration and allowance of this application to Deposit Account 08-2025.

Respectfully submitted,

Date: January 10, 2005

## FILING RECEIPT

\*OC000000012351196\*

Date Mailed: 04/14/2004

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9495. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Preliminary Class

382

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
